PROJECTS

❖ **Rajput Sabha Website:**   March 2024

 Description: Designed and developed a fully responsive and user-friendly website for the Rajput Sabha community. The platform serves as a digital hub for promoting cultural heritage, sharing community updates, and fostering engagement among members. https://balveersinghrajput.github.io/Rajput_sabha/

Technologies Used: HTML, CSS, JavaScript, Bootstrap (or other frameworks if applicable).

Key Features:

> ➤ Informative sections showcasing community history, events, and activities.
> ➤ Interactive navigation for an enhanced user experience.
> ➤ Modern and visually appealing design, optimized for both desktop and mobile users.

❖ **Tic-Tac-Toe Game:**   August 2023

 Overview: Created a web-based Tic-Tac-Toe game using HTML, CSS, and JavaScript to provide an interactive and engaging user experience. https://balveersinghrajput.github.io/Tic-Tac-Toe.Game/

Key Responsibilities:

> ➤ Designed and implemented the game logic, including player turns, winner detection, and draw conditions.
> ➤ Developed a responsive user interface for compatibility across devices.

❖ **Film Production Website:** [working on it]

 Overview: Designed and developed a professional film production website to showcase featured productions, including films, documentaries, commercials, and music videos. https://balveersinghrajput.github.io/flim_project/

Key Responsibilities:

> ➤ Built a responsive and visually appealing user interface using HTML, CSS, and JavaScript.
> ➤ Integrated multimedia elements like videos, images, and interactive buttons to enhance user engagement.
> ➤ Optimized the website for various devices, ensuring seamless performance across desktop and mobile platforms.
